RC
DESIGN

Kvalitet HELE VEJEN RUNDT

Vores alufælge kendetegnes ved et unikt design. Den nyeste software muliggør allerede i planlægningsfasen udformningen af matematiske og topologisk optimale geometrier. På den måde spares der på alt overflødig materiale, hvilket skåner naturlige ressourcer som aluminium og brændstof, samtidig med at det sikrer en fremragende køreoplevelse. Brock og RC-Design alufælge bliver produceret 100% i Europa – fra rå aluminium til den sidste produktionsfase. Vores centrale, topmoderne produktionsfaciliteter sikrer en enestående kvalitet og stabilitet. Dette garanterer den højeste sikkerhed samt en over gennemsnittet lang levetid. Vi anvender certificerede ledelsessystemer inden for kvalitet, miljø og energi, som bidrager til den kontinuerlige udvikling af nye produktgenerationer. Brock og RC-Design er TÜV godkendt og tilbyder også mange ECE monteringer.

Quality IN EVERY WHEEL

Alloy wheels from Brock distinguish by their superior optics. Modern software allows the design of mathematical and topologically perfect geometries already in the planning phase. So every single, for the strength irrelevant gram, is saved to protect natural resources such as aluminum or fuels on the one hand, while ensuring an outstanding driving experience on the other hand. Furthermore, alloy wheels from Brock and RC-Design impress with their excellent stability and the highest security. They also have exceptionally long lifetimes. Certified management systems in quality, environment and energy are installed along the entire value chain and help us to improve new product generations continually.

Sportsligt egedesign, imponerende designelementer og stærk visuel effekt. B42-fælgens V-eger, der synes at strække sig ud over fælgens kant, skaber et markant look. I størrelserne 8.5×19, 8.5×20 og 9.5×20 er Brock B42 designet til modeller inden for tuning-segmentet. Uanset om det er VW Golf GTI 7 og 8, Audi A5 og A6, Skoda Octavia RS, Seat Leon Cupra, BMW 3-serie og 4-serie, Ford Focus ST og RS eller endda Toyota Supra, giver B42-fælgen en unik stil.

Sporty spoke guidance, inspiring design elements, convincing applications. The V-spokes, which extend endlessly beyond the wheel, are the impetus behind the B42.

BROCK B41

Brock B41 alufælgen med Y-split-design imponerer med sin dynamisk opdelte egekonstruktion. Skiftende egelængder skaber en stærk visuel effekt og en antydnet konkavitet. Farvenuancerne Schwarz Glanz Voll-Poliert, Ferric Grey og Schwarz Glanz giver Brock B41 et individuelt præg til forskellige bilmodeller. Gennem teknisk perfektionerede processer er denne alufælg udviklet specielt til køretøjer som Audi Q-serien, Porsche Cayenne, Mercedes GLE og BMW X-serien.

The Brock B41 alloy wheel in Y-split design impresses with its dynamically separated spoke guidance. Alternating spoke lengths are decisive for the strong look and the implied concavity.

BROCK B40

En uforvekselig karakter og sportslig finesse kendetegner B40-fælgen. Y-egerne og det markante centrum giver fælgen en kraftfuld fremtoning.

The Brock B40 is characterized by its distinctive character and a sportive finesse. The Y-Spoke-Wheel convinces with its concise center and an extreme spoke structure.

BROCK B32

Ved første øjekast fremstår Brock B32 alufælgen enkel, men den indadvendte fælgmidte og de skarpt bøjede eger afslører en raffineret detaljering.

At first glance, the Brock B32 light-alloy wheel looks simple, but the inboard center of the rim and the angularly bent spokes are a great refinement.

EFFEKTIVITET BESKYTTER *miljøet*

Brock Alloy Wheels prioriterer miljøbeskyttelse og konstant forbedring af energieffektiviteten. Gennem et velstruktureret ledelsessystem sikrer vi, at disse principper implementeres på alle niveauer af virksomheden. Et centralt fokus er at øge energieffektiviteten, hvilket reducerer miljøbelastningen. Dette gælder både ved anskaffelse af nye produktionsmidler og udvikling af nye produkter og processer, hvor vi tager hensyn til miljøvenlighed, ressourceforbrug og affaldsreduktion. Med målrettede kontrolforanstaltninger sikrer vi overholdelse af lovgivningen og kontinuerlige forbedringer.

EFFICIENCY PROTECTS THE *Environment*

Protecting the environment and constantly improving energy efficiency are important business goals for our company. A suitable management system ensures that the tasks are implemented in all operational functions and levels. An important management task is to increase energy efficiency, thereby reducing environmental pollution. Procurement and the design of new equipment are also geared to this, as we already consider the environmental compatibility, the economical use of resources and the avoidance / reduction of waste / emissions when designing new products and processes. Through appropriate control measures, we ensure compliance with all legal requirements and make continuous improvements.

Brock og RC "Eco Line" er specielt udviklet til el- og hybridbiler. Vores teknisk optimerede fælgedesigns sikrer, at disse fremtidssikrede køretøjer er bedst muligt udstyret. Se alle E-modeller på: WWW.BROCK.DE

The Brock and RC „Eco Line“ is specially tuned to electric and hybrid type automobiles. Through our technically adapted wheel designs, the forward-looking vehicles are optimally equipped. The current E-models on: WWW.BROCK.DE

RC-DESIGN RC36

Den nye RC36-fælg er den ultimative 20-tommer allrounder i RC-Design-sortimentet. Den sportsligt elegante 10-egers fælg fås i seks forskellige størrelser fra 7.5x20 til 10.0x20. Fælgen imponerer med sin perfekte balance mellem dynamisk design og tidløs elegance.

The new RC36 wheel is the new 20-inch all-rounder in the RC Design range. The sporty and elegant 10-spoke wheel is available in 6 different inch sizes from 7.5x20 to 10.0x20. The wheel impresses with its perfect balance of dynamic design and timeless elegance.

RC-DESIGN RC35

Med den nye RC35-fælg beviser RC-Design, at 6-huls fælge kan være både stilfulde og robuste. Tolv kraftige eger og det markante centrum giver RC35 en imponerende offroad-karakter.

With the new RC35 wheel, RC-Design expressively proves that 6-hole wheels can look stylish and robust at the same time. Twelve powerful spokes and the impressive center give the RC35 its imposing off-road character.

Brock og RC-Design alufælge bliver 100 % produceret i Europa – fra det første stykke aluminium til den sidste produktionsfase. Vores moderne produktionsanlæg sikrer en enestående kvalitet. Dette bekræftes af vores certificeringer i henhold til IATF 16949:2016, ISO 9001:2015, ISO 14001 og ISO 27001.

Brock and RC-Design Alloy wheels are manufactured from the first aluminum piece, up to the last manufacturing step to one hundred percent in Europe. Our central and highly modern production facility ensures a superior quality. This is confirmed by our permanently current certifications IATF 16949:2016, ISO 9001:2015, ISO 14001, ISO 27001

RC-DESIGN RC34

RC-Design RC34 varierende egeforløb skaber en imponerende visuel effekt og et unikt design. RC34 er udviklet specifikt til køretøjer som Audi A1, BMW 1-serie, Hyundai i30N Performance, VW Tiguan (II) og Tesla Model 3. Derudover blev 4-hulsvarianten introduceret tilbage i 2021 til modeller som Peugeot e-208, Opel Corsa-e, Fiat 500e og Hyundai i20.

The RC-Design RC34 in the wide-ranging double-spoke design sets sporty, powerful accents. Different spoke courses draw an impressive dynamic and a unique design.

RC-DESIGN RC32

RC-Design RC32 alufælgen imponerer med sin sportslige og dynamiske fremtoning. RC-Design RC32 skiller sig ud på køretøjer BMW X2, Volvo XC40 og Mini Countryman John Cooper Works (JCW), endda med den relevante ECE-godkendelse. I størrelser fra 16 til 19 tommer er denne alufælg et højdepunkt til modeller fra Audi og BMW til Mercedes og VW. Med både ABE og ECE er RC-Design RC32 et alsidigt multitalent inden for anvendelse.

The light alloy wheel RC-Design RC32 is characterized by a sportive dynamic appearance and meets the highest quality standards thanks to our Technology.
